

Darryl Hass is vice president, Health, Safety and Environment Operations for ConocoPhillips Canada.

Darryl is a professional engineer with over 22 years of experience. He began his career with Alberta's Energy Resource Conservation Board, working in the field operations, drilling and production, oil sands and environment protection departments. He moved on to manage field projects for an environmental service company and then to the drilling group in Pan Canadian Petroleum.

In 1997, Darryl joined Anadarko Canada, spending nine years as HSE manager. During his time with Anadarko, Darryl particularly focused on achieving operational excellence combined with a practical approach to safety management.

Darryl joined ConocoPhillips Canada in 2006 as the general manager of HSE Operations and Compliance. With his support and guidance, the ConocoPhillips Canada operations teams continued their substantial improvement in safety performance.

Darryl earned a Bachelor of Science in chemical engineering from the University of Saskatchewan in 1985.
